Iron Frontier: Unit Images for ChatGPT

How to use: upload this PDF to ChatGPT and type **"Follow the instructions in this PDF."** When an image is done, type **"next"**. Save each image with the file name shown.

Instructions for ChatGPT

You are making **unit** art (soldiers and vehicles) for my real-time strategy game, Iron Frontier. The buildings are already finished, so **do not draw any buildings**. There are 11 units listed below. Make **one image at a time, in order, starting with U01**. After each image, tell me its file name, then wait until I type **"next"** before making the following one. Do not put more than one unit in an image. Copy only the art style of the example picture below, not its subjects, and follow these rules:

- Hand-painted real-time-strategy game art like classic Command and Conquer, detailed and weathered.
- Isometric 3/4 view from the front-right corner, looking down at about 35 degrees, sun from the upper left.
- Vanguard faction colors: olive drab (#8A8457) with bold gold-yellow trim stripes (#D9AE3A).
- One unit only, centered, filling about 80 percent of the frame.
- Plain pure white background. No ground, no shadow, no text, no border.
- Square image, 1024 x 1024.

Style example only: do not draw these buildings

These are my finished buildings. Use them only for the painting style, colors and camera angle, so the units look like they belong next to them.

The 11 units to draw

The small picture beside each prompt is the plain placeholder model in the game now. It shows what the unit is; make the new image far more detailed, in the style above.

1. U01 · Rifleman (infantry) file name: U01-A.png

Rifleman: a single soldier in olive fatigues and a gold-striped helmet, holding an assault rifle at the ready, webbing and pouches. Keep the shape bold and simple because soldiers are tiny on the map: clear silhouette, bright gold helmet stripe, chunky gear. Same art style as my Iron Frontier building images: detailed, hand-painted real-time-strategy game art like classic Command and Conquer, isometric 3/4 view from the front-right corner, looking down at about 35 degrees, soft sun from the upper left. Vanguard faction colors: olive drab (#8A8457) with bold gold-yellow trim stripes (#D9AE3A), weathered metal, small details. One soldier only, centered, filling about 80 percent of the frame, on a plain pure white background, no ground, no shadow, no text. Square image, 1024 x 1024.

2. U02 · Grenadier (infantry) file name: U02-A.png

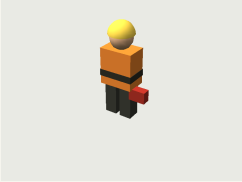

Grenadier: a single soldier in olive fatigues and helmet, mid-throw with a grenade raised, grenade bandolier across the chest and a bag on the hip. Keep the shape bold and simple because soldiers are tiny on the map: clear silhouette, bright gold helmet stripe, chunky gear. Same art style as my Iron Frontier building images: detailed, hand-painted real-time-strategy game art like classic Command and Conquer, isometric 3/4 view from the front-right corner, looking down at about 35 degrees, soft sun from the upper left. Vanguard faction colors: olive drab (#8A8457) with bold gold-yellow trim stripes (#D9AE3A), weathered metal, small details. One soldier only, centered, filling about 80 percent of the frame, on a plain pure white background, no ground, no shadow, no text. Square image, 1024 x 1024.

3. U03 · Rocket Soldier (infantry) file name: U03-A.png

Rocket Soldier: a single soldier in olive fatigues and helmet, kneeling with a long olive-and-gold shoulder rocket launcher, spare rockets on the back. Keep the shape bold and simple because soldiers are tiny on the map: clear silhouette, bright gold helmet stripe, chunky gear. Same art style as my Iron Frontier building images: detailed, hand-painted real-time-strategy game art like classic Command and Conquer, isometric 3/4 view from the front-right corner, looking down at about 35 degrees, soft sun from the upper left. Vanguard faction colors: olive drab (#8A8457) with bold gold-yellow trim stripes (#D9AE3A), weathered metal, small details. One soldier only, centered, filling about 80 percent of the frame, on a plain pure white background, no ground, no shadow, no text. Square image, 1024 x 1024.

4. U04 · Engineer (infantry) file name: U04-A.png

Engineer: a single unarmed engineer in an orange safety vest over olive overalls, yellow hard hat, carrying a red toolbox. Keep the shape bold and simple because soldiers are tiny on the map: clear silhouette, bright gold helmet stripe, chunky gear. Same art style as my Iron Frontier building images: detailed, hand-painted real-time-strategy game art like classic Command and Conquer, isometric 3/4 view from the front-right corner, looking down at about 35 degrees, soft sun from the upper left. Vanguard faction colors: olive drab (#8A8457) with bold gold-yellow trim stripes (#D9AE3A), weathered metal, small details. One soldier only, centered, filling about 80 percent of the frame, on a plain pure white background, no ground, no shadow, no text. Square image, 1024 x 1024.

5. U05 · Recon Buggy (vehicle) file name: U05-A.png

Recon Buggy: a four-wheel open-frame dune buggy with a roll cage, big off-road tires and a pintle machine gun mounted behind the seats. Same art style as my Iron Frontier building images: detailed, hand-painted real-time-strategy game art like classic Command and Conquer, isometric 3/4 view from the front-right corner, looking down at about 35 degrees, soft sun from the upper left. Vanguard faction colors: olive drab (#8A8457) with bold gold-yellow trim stripes (#D9AE3A), weathered metal, small details. One vehicle only, centered, filling about 80 percent of the frame, on a plain pure white background, no ground, no shadow, no text. Square image, 1024 x 1024.

6. U06 · Light Tank (vehicle) file name: U06-A.png

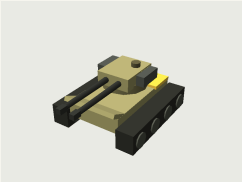

Light Tank: a small fast tracked tank with a low angular hull, small turret and a short cannon. Same art style as my Iron Frontier building images: detailed, hand-painted real-time-strategy game art like classic Command and Conquer, isometric 3/4 view from the front-right corner, looking down at about 35 degrees, soft sun from the upper left. Vanguard faction colors: olive drab (#8A8457) with bold gold-yellow trim stripes (#D9AE3A), weathered metal, small details. One vehicle only, centered, filling about 80 percent of the frame, on a plain pure white background, no ground, no shadow, no text. Square image, 1024 x 1024.

7. U07 · Medium Tank (vehicle) file name: U07-A.png

Medium Tank: a main battle tank with sloped armor, a large turret, long cannon with a muzzle brake, side skirts over the tracks. Same art style as my Iron Frontier building images: detailed, hand-painted real-time-strategy game art like classic Command and Conquer, isometric 3/4 view from the front-right corner, looking down at about 35 degrees, soft sun from the upper left. Vanguard faction colors: olive drab (#8A8457) with bold gold-yellow trim stripes (#D9AE3A), weathered metal, small details. One vehicle only, centered, filling about 80 percent of the frame, on a plain pure white background, no ground, no shadow, no text. Square image, 1024 x 1024.

8. U08 · Heavy Tank (vehicle) file name: U08-A.png

Heavy Tank: a huge heavy tank with a wide double-track hull, a massive turret with twin long cannons and a missile pod on each side of the turret. Same art style as my Iron Frontier building images: detailed, hand-painted real-time-strategy game art like classic Command and Conquer, isometric 3/4 view from the front-right corner, looking down at about 35 degrees, soft sun from the upper left. Vanguard faction colors: olive drab (#8A8457) with bold gold-yellow trim stripes (#D9AE3A), weathered metal, small details. One vehicle only, centered, filling about 80 percent of the frame, on a plain pure white background, no ground, no shadow, no text. Square image, 1024 x 1024.

9. U09 · Artillery (vehicle) file name: U09-A.png

Artillery: a tracked self-propelled howitzer with an open gun deck, stabilizer legs and a very long barrel raised high. Same art style as my Iron Frontier building images: detailed, hand-painted real-time-strategy game art like classic Command and Conquer, isometric 3/4 view from the front-right corner, looking down at about 35 degrees, soft sun from the upper left. Vanguard faction colors: olive drab (#8A8457) with bold gold-yellow trim stripes (#D9AE3A), weathered metal, small details. One vehicle only, centered, filling about 80 percent of the frame, on a plain pure white background, no ground, no shadow, no text. Square image, 1024 x 1024.

10. U10 · Harvester (vehicle) file name: U10-A.png

Harvester: a big tracked mining vehicle with a toothed scoop drum at the front, cab on one side and an open rear hopper heaped with glowing green crystal. Same art style as my Iron Frontier building images: detailed, hand-painted real-time-strategy game art like classic Command and Conquer, isometric 3/4 view from the front-right corner, looking down at about 35 degrees, soft sun from the upper left. Vanguard faction colors: olive drab (#8A8457) with bold gold-yellow trim stripes (#D9AE3A), weathered metal, small details. One vehicle only, centered, filling about 80 percent of the frame, on a plain pure white background, no ground, no shadow, no text. Square image, 1024 x 1024.

11. U11 · MCV (vehicle) file name: U11-A.png

MCV: a large six-wheeled heavy truck carrying a folded boxy construction module on its back, with a small folded crane arm on top. Same art style as my Iron Frontier building images: detailed, hand-painted real-time-strategy game art like classic Command and Conquer, isometric 3/4 view from the front-right corner, looking down at about 35 degrees, soft sun from the upper left. Vanguard faction colors: olive drab (#8A8457) with bold gold-yellow trim stripes (#D9AE3A), weathered metal, small details. One vehicle only, centered, filling about 80 percent of the frame, on a plain pure white background, no ground, no shadow, no text. Square image, 1024 x 1024.

When all 11 are done

Send the 11 images back to Claude, either one by one or together in a PDF, so they can go into the game. Later, the same prompts with "gunmetal grey (#58595D) with red trim (#B3261E)" make the enemy Red Dominion versions, named U01-B.png and so on.
