Iron Frontier: Game Image List

Every image the game uses, in 53 entries. Each entry gives an ID, what the image shows, where it appears in the game, and the size to make it. Name your files by ID and version, for example **S01-vanguard.png**, **S01-red.png** or **S01-icon.png**.

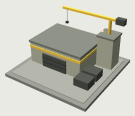

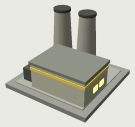

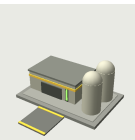

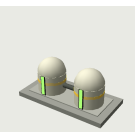

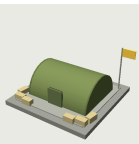

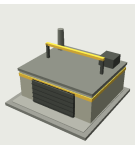

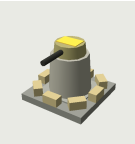

Camera for all map images: classic overhead view. The camera is directly in front of the object (not turned to a corner) and looks down at about 58 degrees, so the front faces the bottom of the image and the base is a level rectangle. Sun from the upper left. **Factions:** Vanguard is olive drab (#8A8457) with gold trim (#D9AE3A); Red Dominion is gunmetal (#58595D) with red trim (#B3261E). Map images and icons need transparent backgrounds unless noted.

The game as it looks now: match this camera angle, not the shapes. Attach this picture in ChatGPT if it helps.

Structures (11)

Each structure needs its map image in both faction colors, plus one build icon for the sidebar.

ID	Current look	Image	What it shows	Where in the game	Versions and size
S01		**Construction Yard**	Main base building: assembly hall, corner tower with a construction crane. 3 x 3 tiles.	Battlefield; deployed from the MCV	Vanguard + Red Dominion. Map 1024 px square, icon 400 x 300
S02		**Power Plant**	Generator hall with two smokestacks and glowing vents. 2 x 2 tiles.	Battlefield, Build list	Vanguard + Red Dominion. Map 1024 px, icon 400 x 300
